

Stand for Brush-Light

Product No. OP-006 135

OP-006 135 is designed to allow maximum freedom of movement for Brush-Light as inspecting the BGA components. Brush-light can be moved axially, laterally and be tilted 360° mounted on this stand.

OP-006 135 might be ordered with extra long boom ($\phi 12 \times 320$ mm) and one extra unit of the Circular base for access to BGA components across the large PCB panels.

OP-006 135 is made of high quality stainless steel and anodised aluminium parts.

Specification:

- (vertical) z-travel ● ~ 180 mm
- (horizontal) y-travel ● ~ 180 mm (300 mm with optional 320 x ϕ 12mm boom)
- Tilt function ● Up 90°, Down 90°
- Size of base plate ● ϕ 110 mm x 15mm
- Size of vertical rod ● ϕ 14mm x 200
- Weight ● 1,6 Kg. (2,8 kg with 300 x ϕ 12mm boom and extra Circular Base)
- Extra accessories ● 300 x ϕ 12mm boom, Circular Base

320 x ϕ 12mm boom
